

Features and Benefits

DSM-320RD Wireless Media Player with DVD and Card Reader

Stream Music, Videos, and Photos

The DSM-320RD is a perfect addition to your digital entertainment center. Enjoy music, video, and photos when and where you want it—in the living room, bedroom, den, or anywhere you have a TV. Once connected to the home network, the DSM-320RD allows you to access digital media content from any PC on the network.

Progressive Scan DVD Player

The DSM-320RD features a progressive scan DVD player which delivers DVDs with high-quality video and theater-like sound. This DVD player also plays VCD, SVCD, CD-R, CD-RW, DVD±RW, CD, and MP3 discs¹.

Built-in 5-in-1 Card Reader

The DSM-320RD features a built-in 5-in-1 card reader to view and share digital media stored on a memory card. It supports all popular memory cards, including SD, Memory Stick, MMC, and Compact Flash (Type I and II).

Easily Connect to Your Wireless Network

The DSM-320RD supports 802.11g wireless networking to stream media at a maximum wireless signal of up to 54Mbps², giving you ultimate enjoyment of your digital media. You can also stream media via Ethernet.

Online Media Services

Experience a world of entertainment beyond what is stored on the PC. Premium online services offer DSM-320RD users access to a vast array of online radio stations and PC music downloads. And now, with support for Windows® Media Connect³ (WMC), files protected by Windows® Media Digital Rights Management (WMDRM) can be streamed from your PC to your living room.

Windows® Connect Now Support

With support for Windows® Connect Now, configuring the wireless settings is easier than ever before! Simply run the Wireless Network Setup Wizard from Windows XP SP2 and transfer the wireless settings to the DSM-320RD using a USB flash drive⁴.

Remote Controlled TV Interface

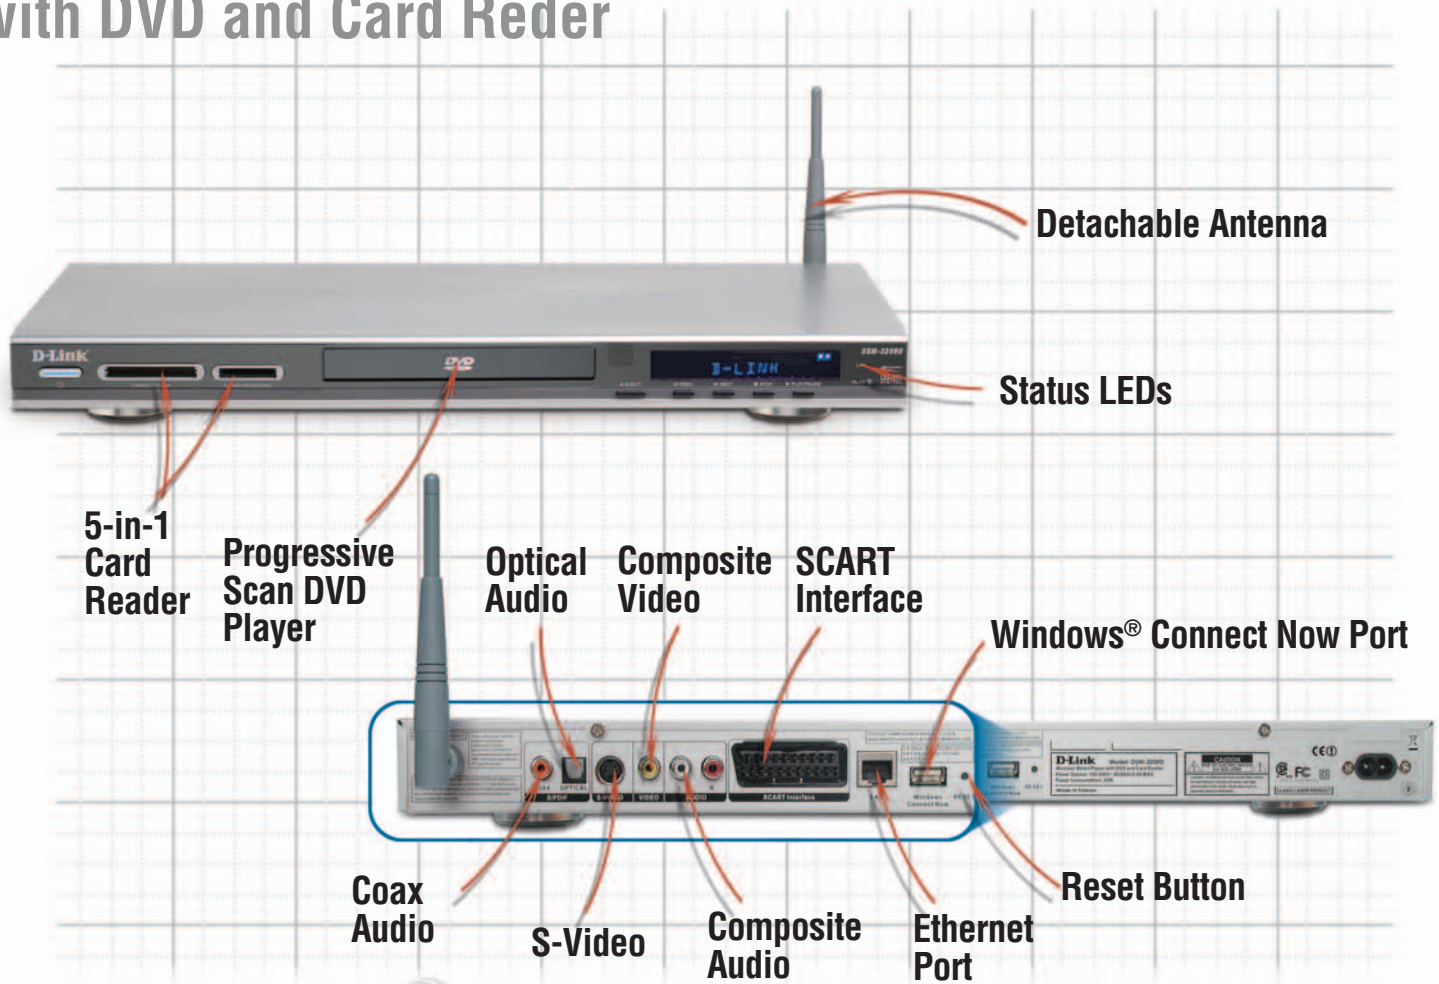

Quickly and easily access digital media content using the included remote control to navigate through the user-friendly TV interface. The on-screen menus make it simple and easy to navigate through all media content.

Sit 'n Click™

The DSM-320RD brings new meaning to the remote control! Now you can Sit 'n Click™ to effortlessly access music, photos, and videos on a PC—all from the comfort of your living room.
